About ROFO

About RoFo:

RoFo is a specialized mobility engineering company focused on Law Enforcement, Public Safety, and Tactical Vehicle Solutions.

From our Dubai headquarters, we design, build, and integrate mission-ready mobility systems engineered for real operational challenges.

Our capabilities span advanced manufacturing, protective coatings, smart technology integration, and custom tactical vehicle conversions.

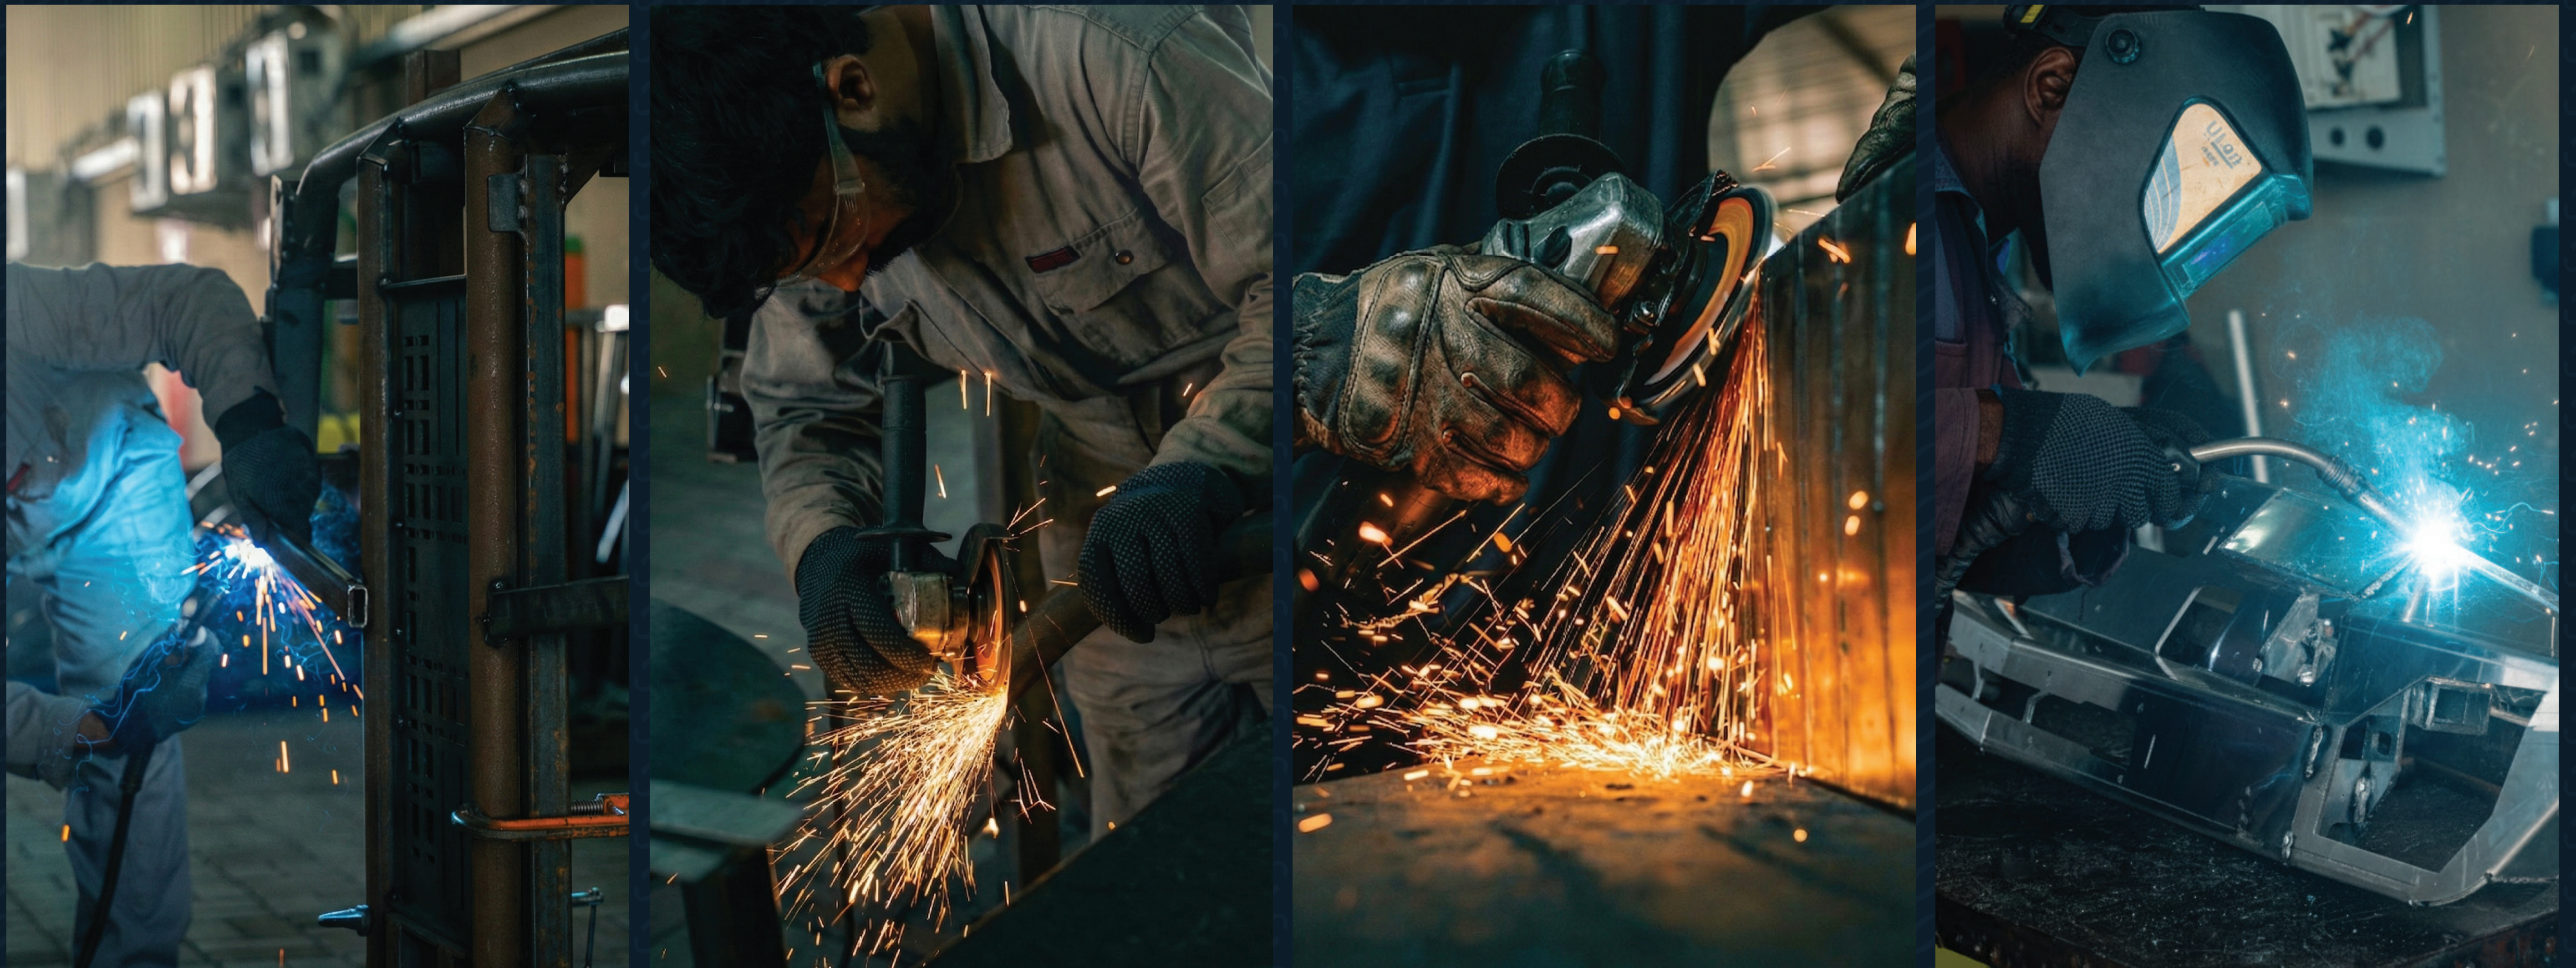

Main Business Pillars

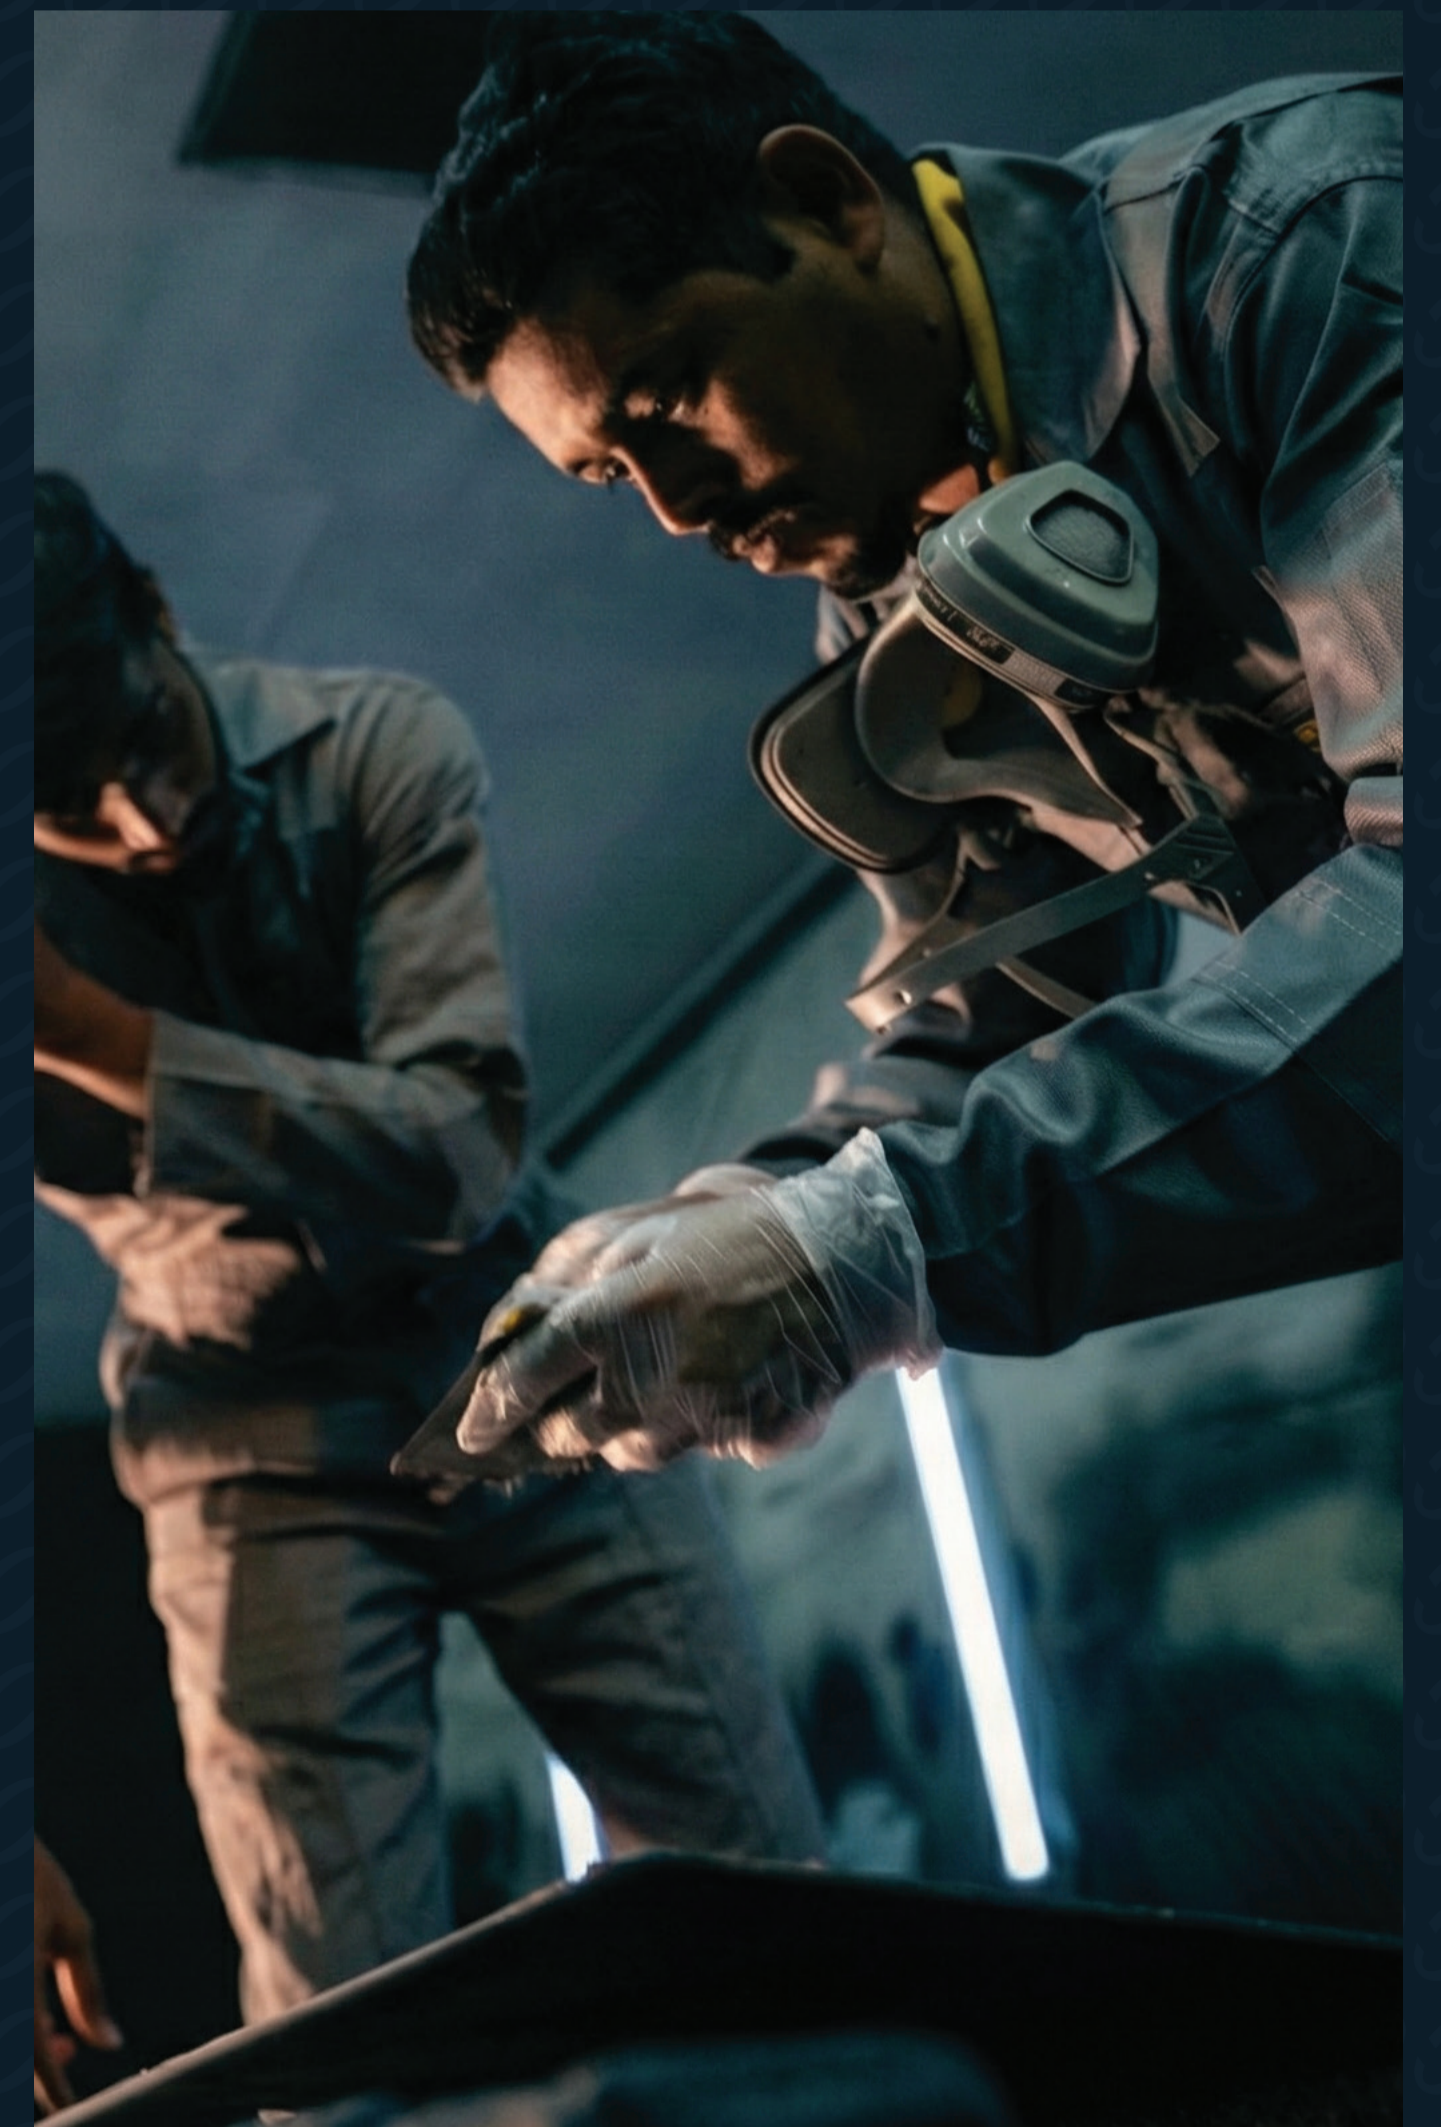

RoFo Manufacturing

- RoFo is a highly advanced manufacturer of Metal parts for the Automotive Law Enforcement sectors. Our team uses the latest 3D design technologies to turn new product ideas into reality.
- In our factory, designs come to life with the combination of CNC and laser technologies for metal cutting and forming.
- RoFo has built many different applications and projects for both Government and Private Sectors.

RoFo Coatings

Industrial-grade high performance polyurea protection provides superior impact, abrasion, and corrosion resistance for both interior and exterior components. As a versatile spray-on solution, it adheres seamlessly to almost any surface, offering universal protection. Designed to protect anything you value, our products combine durability with adaptability for a wide range of applications.

RoFo Technology

Wide range of Premium technology services/products provided through collaboration with world leading partners to fulfill the end user's requirements such as (facial and number plates recognition system, Fleets tracking and management, Command rooms and systems, heat motion sensor, smart taxi, smart school bus, etc...

Emergency Management Services Specialization:

RoFo operates with a singular focus:

- Delivering advanced High-performance mobility solutions for Law Enforcement & public safety agencies.

Years of working in mission-critical environments shaped our expertise across tactical builds, secure modules, and emergency-ready vehicle platforms.

What Sets Rofo Apart

What Sets RoFo Apart:

Police-grade
engineering standards

Mission-ready
manufacturing &
system integration

Proven durability in
real field operations

In-house manufacturing,
coating & technology
departments

Multi-platform
compatibility for a variety
of car models

OE Fitment level products
with minimal or zero
cutting requirements

**Built on reliability.
Driven by Innovation.**

Products and Solutions
LAW ENFORCEMENT VEHICLE SYSTEMS

Products and Solutions

Prisoners Transport Kit

Prisoners Transport Kit

Designed for
maximum
safety

Dual
compartment

Options for
automatic/manual
lock

Compatible with
various vehicles
models

Transfarable
bolt-on MS and
Aluminum stucture

Products and Solutions
SWAT & Tactical Response Vehicles

Products and Solutions

K9 Units

Products and Solutions

Anti-Riot Kit

Anti Riot Kit

Systems

Products and Solutions
Emergency / Rescue / Ambulance

Emergency / Rescue / Ambulance

Products and Solutions

TECHNOLOGY INTEGRATION

Technology Integration

Smart mobility solutions for operational awareness & field control.

Cameras & surveillance systems

GPS & real-time tracking

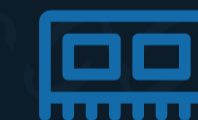

Sensors & driver-alert systems

Command & communication systems

Telematics for fleets

Custom electronics & wiring integration

Fleets services, School bus, Law Enforcement applications & Public transportation

Products and Solutions

HIGH PERFORMANCE PROTECTIVE COATING

Protective Coatings

Mission-grade protective coatings engineered for durability, strength & longterm performance.

High performance polyurea protective coatings

Abrasion, impact, corrosion resistance & chemical-resistant layers

Anti spalling & blast mitigation

Underbody & interior protection

High temperature applications

Coating solutions for a wide range of applications over many surfaces

Custom textures, thickness levels & finishing options

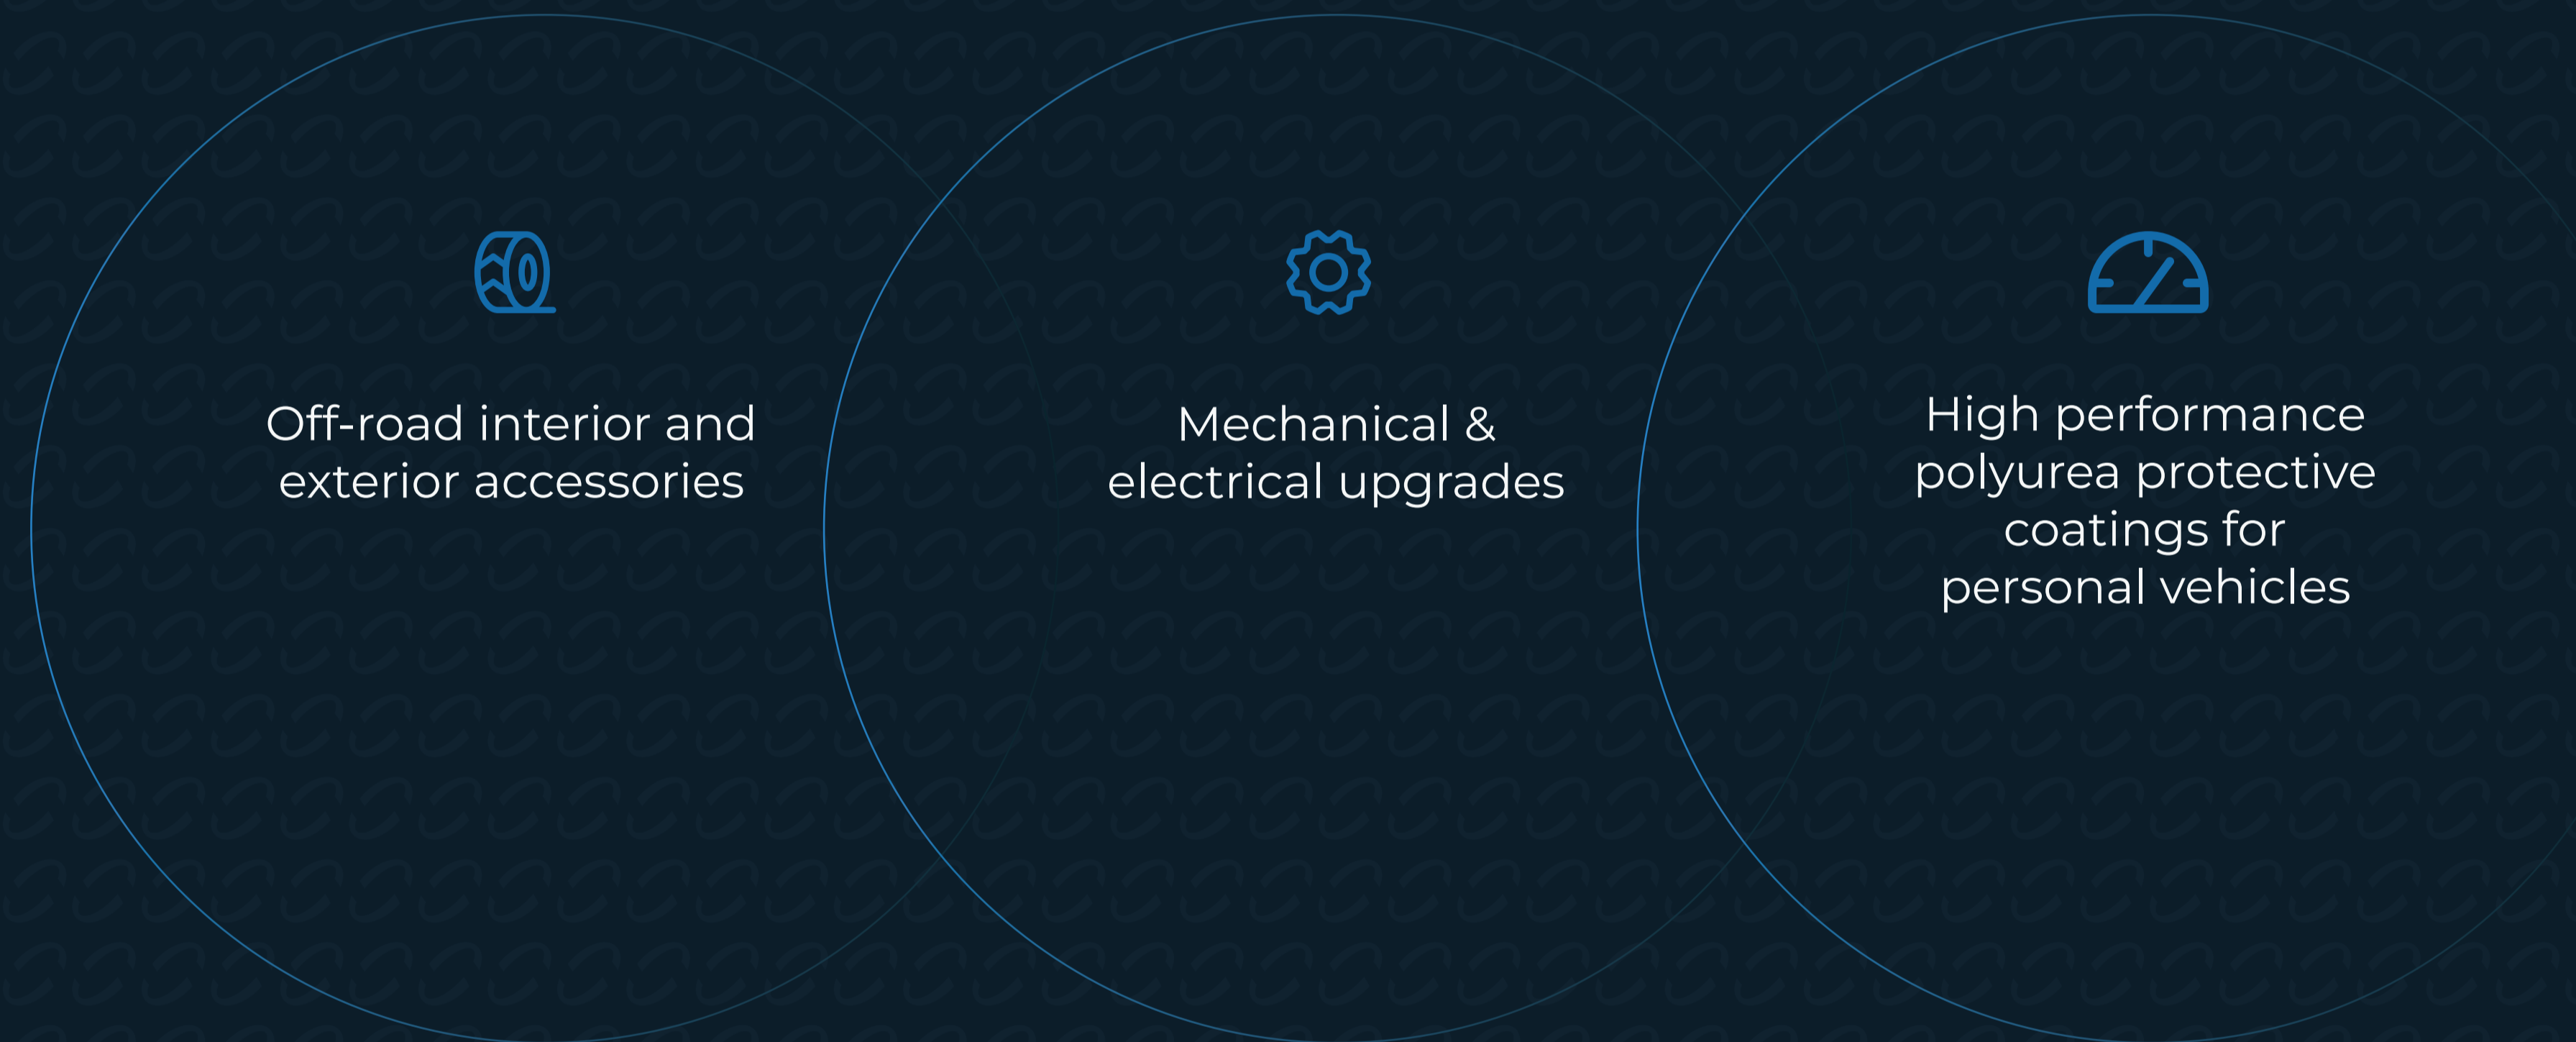

Products and Solutions

RETAIL SOLUTIONS

Retail Solutions

Premium automotive off-road upgrades for consumer through trade clients:

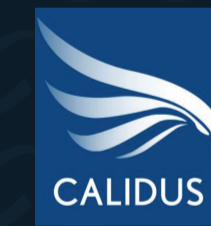

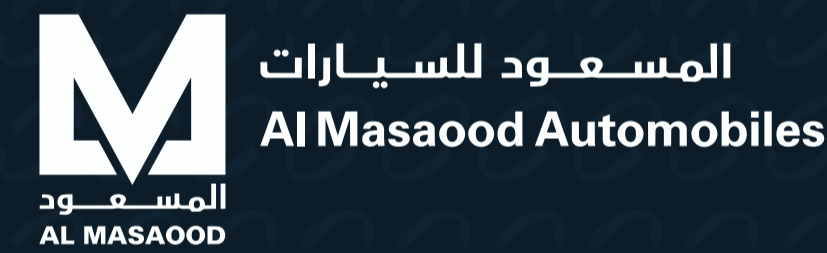

Partners and Track Record

Achivements:

and more
